

A man with a beard and short hair, wearing a white shirt, is shown in profile from the chest up. He is pointing his right index finger towards a large, glowing network of icons. The icons are blue and white, representing various healthcare concepts: a hospital building, a doctor with a stethoscope, a nurse, a heart with a pulse line, a microscope, a person, a pill, a DNA helix, and a person in a wheelchair. The background is a bright blue sky with white clouds. The overall theme is healthcare and technology.

# HealthQx

Quality across health care

*We put the power to control healthcare cost and improve quality in your hands.*

## Provider transparency demands data-driven solutions

- Big data at the source
- State of the art technology
  - Cloud based Analytics
  - SaaS based Web Portal
- Easy to use web-based interface
- Rank Providers based on “Value”

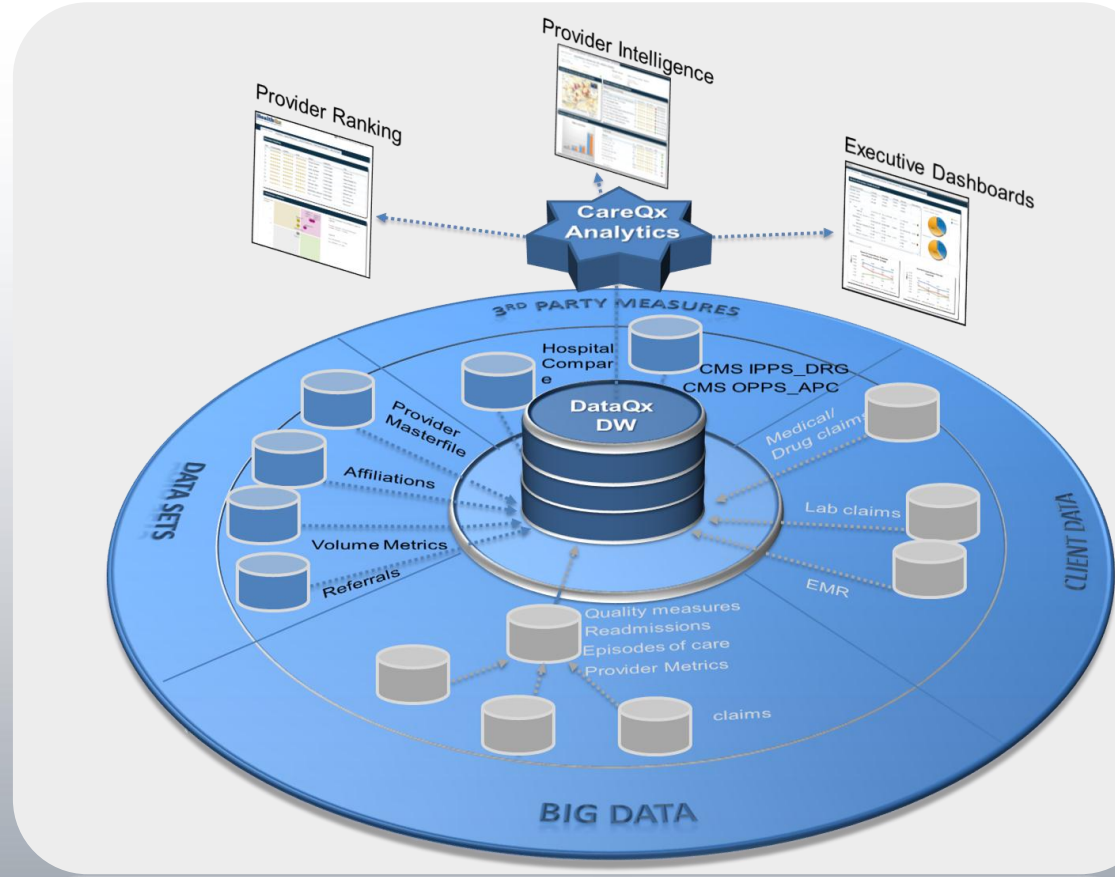

## Enterprise Data Analytics: Insights for actionable interventions

- Comparative performance analysis on quality and efficiency
- Provider Performance Transparency for organizations and members
- Decision Support for Value based payments

## Big data set:

- **Big Data:** Medical claims data on 120 million patients and 2.5 billion medical claims nationwide
- **Publicly available data:** CMS, Leapfrog, Joint Commission

## Client Data

In the new healthcare landscape the best values will be delivered by the best healthcare teams

### Evaluate Quality and Efficiency

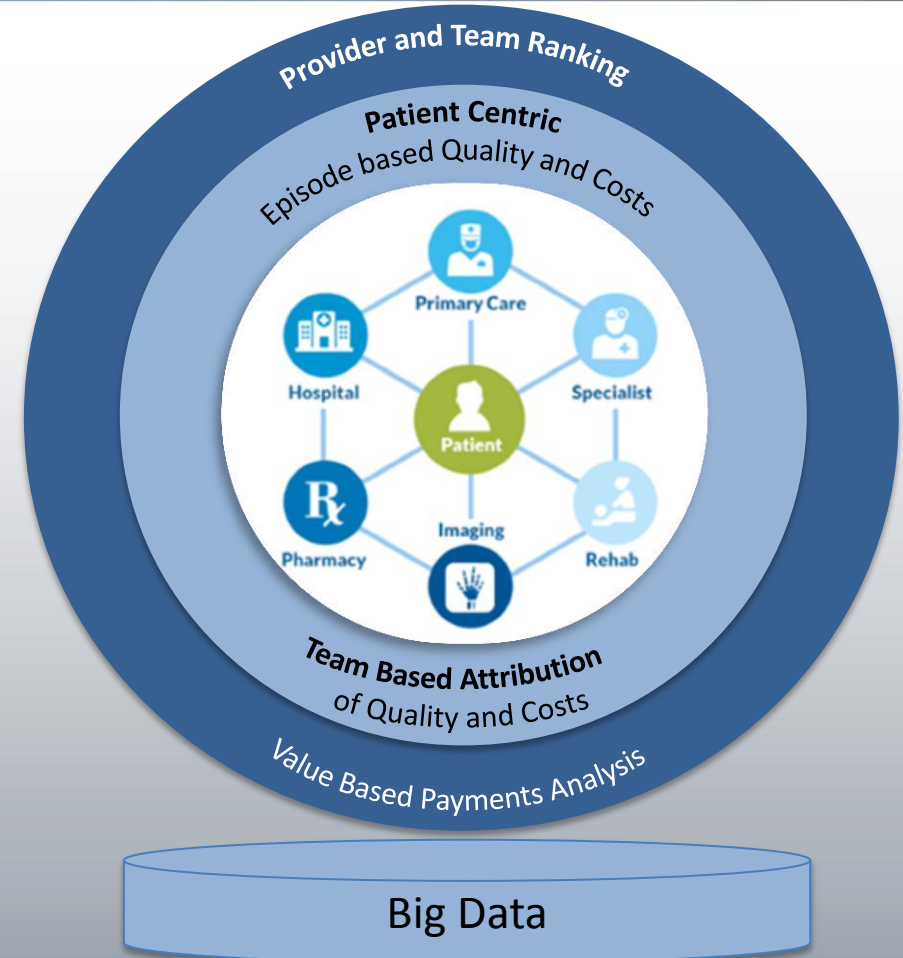

- Episode based
- Patient Centric
- Attributed to Providers and Teams

### Provider Transparency

- Rankings of Providers and Teams

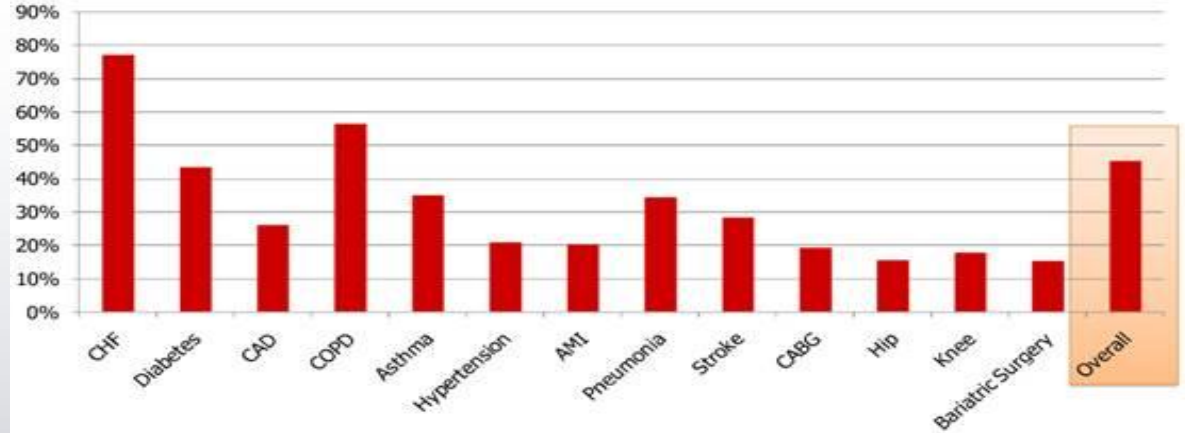

### Analysis for Value Based Payment Models

- Identify teams with best value
- Comparative performance analysis

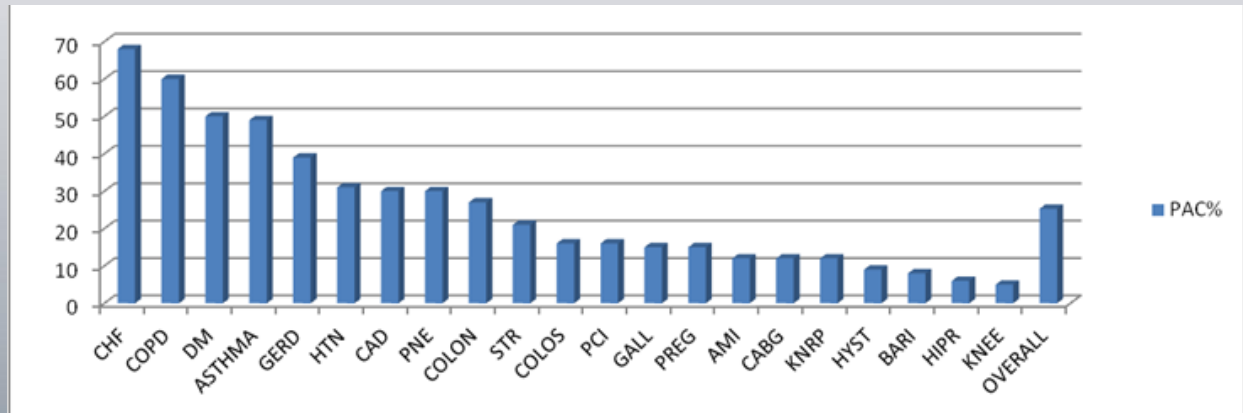

**Roundtable on Evidence-Based Medicine  
Institute of Medicine July 2009**

Cost of care defects as % total cost of care for each condition/procedure

**HealthQx Results**
