The Greater Philadelphia Business Coalition on Health (GPBCH) seeks to increase the value of health benefit spending for the region's employers. We do this by improving workforce and community health, increasing healthcare quality and safety, and reducing health care costs. The Coalition represents employer interests in working with health plans, health care providers, benefits consultants, suppliers and other system stakeholders to address population health priorities and to ensure that when health care is needed it is accessible, affordable, equitable, high-quality, and safe.
