

# Stay Informed. Stay Safe.

## Introducing ProtectWell™ from UnitedHealth Group.

ProtectWell helps employees know they are safe to go to work, co-workers know their colleagues are safe, and employers know their team and environment is safe to do business. ProtectWell will also feed into a national infectious disease database taking the collected data, de-identifying it and using it to support public health decisions.

### It's More Than a Symptom Checker:

- **Designed to keep essential workers safe, on the job and supports return to work guidance.**
- **Integrated testing, health support and health verification.**
- **Simple, speedy and seamless experience for easy everyday use.**
- **Data that empowers occupational and public health decisions.**

### Touchpoints and Features:

#### The ProtectWell Employee App

- Symptom Checker with Guidance to Go to Work, Manage Symptoms at Home or Get Tested
- Work Check-In QR Code
- Receive Test Results
- CDC Guidelines, Resources and Videos

#### Employer Console and Dashboard

- Define Cohorts and Upload Employee Roster
- Customize Employee Messaging
- Configure Decision End Points
- View Training Videos and Materials
- Generate Reports on Status of Employees for Workforce Planning

#### ProtectWell Checker Employer App

- QR Code Scanner for Employee Status
- Real Time Symptom Checker

## The ProtectWell™ Journey:

Employer receives **invite for Employer Console** from UnitedHealth Group

Employer sends **Intro Email** to Manager

Employee **Downloads ProtectWell App**

Employee completes **Symptom Checker Questionnaire**

If cleared, employee reports to work and **ProtectWell Checker** scans QR code to get latest status

**Employer uploads Employee Roster** and Assigns Checker at desired locations

Manager sends **Welcome Email** to Employee

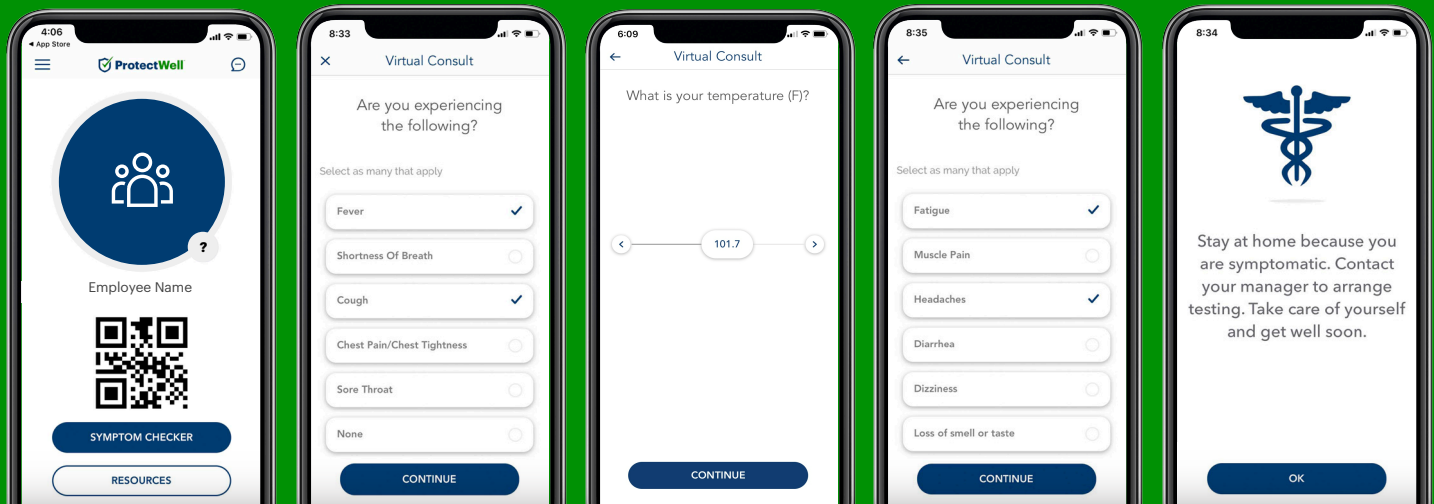

**Employee Registers** with secure credentials and goes through Intro Experience

**Employee given status and actions:**

- Cleared to Work
- Isolate at Home
- If Applicable, Get Tested

Employee status and reporting available on secure **Employer Dashboard**

## Safety at Your Fingertips in a Few Easy Steps.
